About Us

Executive Summary

Problem:

Centralized exchanges are vulnerable to hacks, and traditional escrow services are unreliable and prone to fraud.

Solution:

- Decentralized multi-signature exchange with double deposit escrow
- Non-custodial trading with Ethereum, Bitcoin & more
- Unique wallet recovery system

Market Opportunity:

- \$8.035T TAM by 2026

Traction:

- 300+ active users, 2 years alpha testing, 7 years R&D

Team:

- Experienced blockchain experts and entrepreneurs

Funding:

- Ask: \$25M to accelerate growth and development

NightTrader.Exchange aims to capture significant market share and establish leadership in decentralized cryptocurrency trading and escrow services within 36-48 months.

The Problem

Almost half of all Bitcoin have either been lost or stolen!

- Fiat-based currencies are inflating year over year, creating economic instability.
- Escrow services are becoming increasingly unreliable and have become prone to fraud/abuse.
- International banking institutions and organizations have become increasingly politicized, jeopardizing economic growth.

Bitcoin and other cryptocurrencies are vastly outperforming fiat currencies, validating their use as a viable currency.

- Many centralized exchanges are regularly under attack and get hacked, while they have not updated their security protocols.

The Solution

Technologies we have built:

• Decentralized Multi Signature Exchange.

This addresses the vulnerability of centralized exchanges to hacks by eliminating a single point of failure. Users retain control of their funds, significantly reducing the risk of theft.

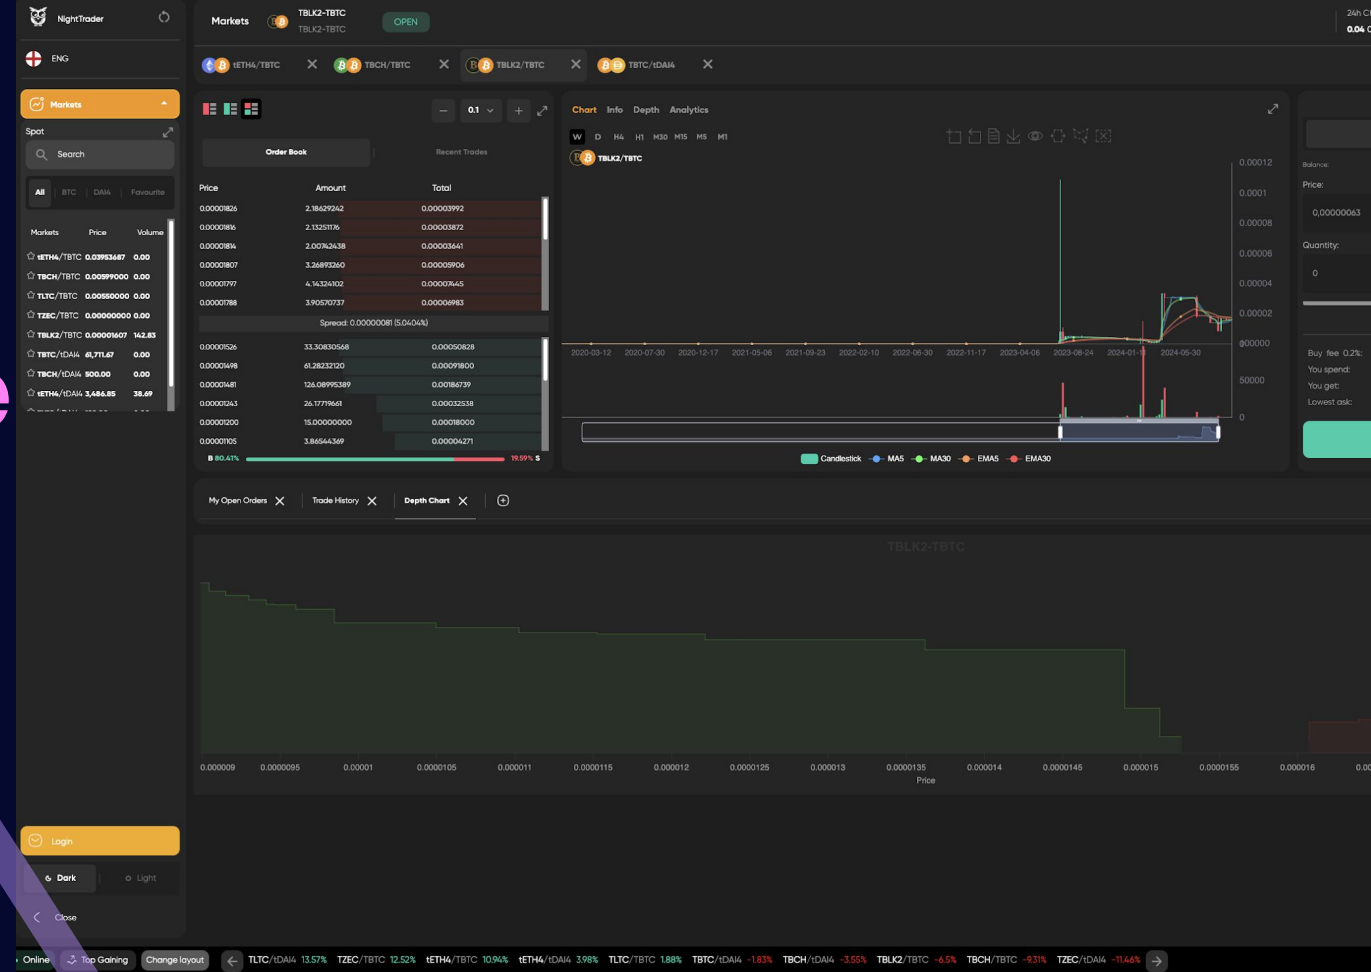

• Collateralized Double Deposit Escrow Market.

This solves the problem of unreliable and fraud-prone escrow services by removing the need for a third-party intermediary. The double deposit system incentivizes both parties to complete transactions honestly.

• Cryptocurrency Coin with a Dynamic Peg.

This feature helps combat the economic instability caused by inflating fiat currencies. The dynamic peg allows for price stability while maintaining the benefits of cryptocurrency. These technologies combined create a secure, reliable, and efficient platform for cryptocurrency trading and escrow services, addressing the major pain points in the current crypto ecosystem.

TAM/ SAM/ SOM

Total Available Market

\$8B Escrow Services

\$8T Cryptocurrency Market Cap

\$27B Potential Cybercrime Prevention

Total TAM: \$8.035 Trillion

Serviceable Addressable Market (10% of TAM)

Total \$803.5 Billion

Serviceable Obtainable Market (10% of SAM)

Total \$8.35 Billion

Growth Potential:

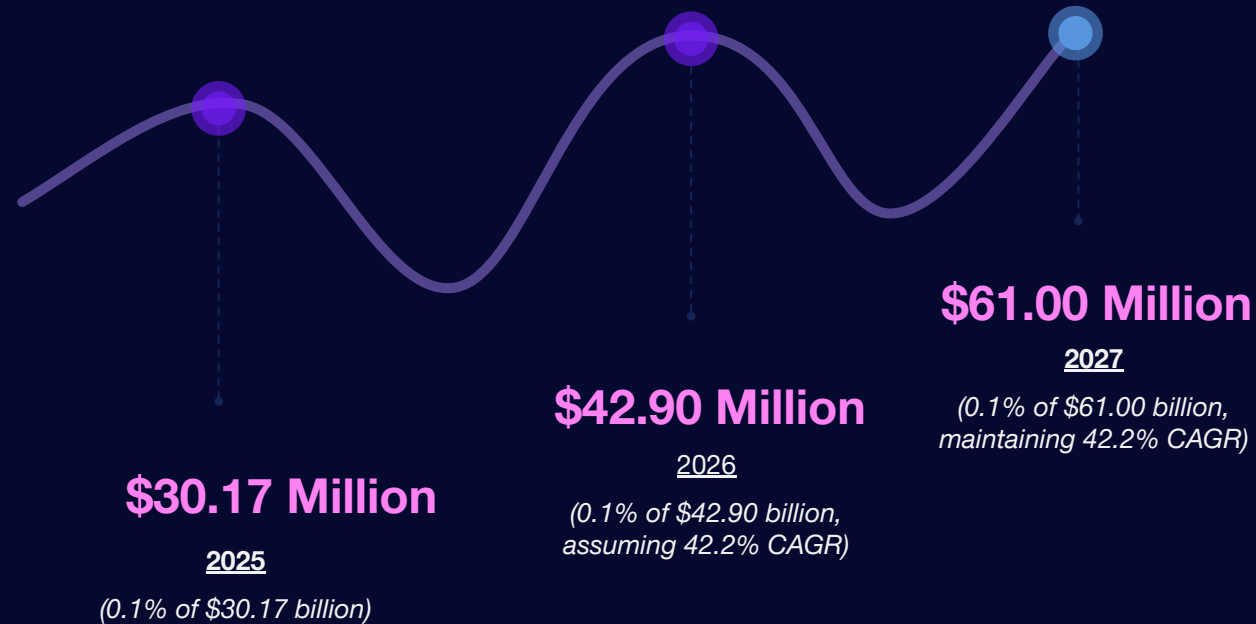

- Escrow Services: Projected 15% CAGR
- Cryptocurrency Market: Estimated 41.7% CAGR (2021-2030)
- Cybercrime Prevention: Expected to grow as crypto adoption increases

Key Takeaways:

1. Massive market opportunity with \$8.035T TAM
2. Conservative SAM and SOM estimates show significant room for growth
3. High-growth sectors, especially in cryptocurrency and cybercrime prevention
4. NightTrader's unique offering positions it to capture a significant market share

By targeting just 1% of our SOM in the first year, NightTrader can achieve \$803.5M in revenue, with potential for exponential growth as we expand our market presence and the overall market continues to grow.

Expense Projections

- Development and Launch: \$2 million (one time cost)
- Marketing and User Acquisition: \$3 million in year 1, increasing by 20% annually
- Regulatory Compliance and Legal: \$1 million in year 1, increasing by 10% annually
- Operational Costs: \$2 million in year 1, increasing by 15% annually

Profitability Timeline

- Year 1 (2024): Net loss because of high initial costs and lower revenue
- Year 2 (2025): the company will reach a break-even or a small profit as revenue grows and absorbs initial costs.
- Year 3-5 (2026-2028): Increasing profitability as revenue grows exponentially and costs stabilize

Based on potential revenue, calculated from market size:

Financial Projections

Following slide showcases forecasted financial performance of NightTrader to understand growth potential. It provides insights about projected annual revenue and the number of users.

Additional Revenue Streams:

\$ 250,000 - 1,000,000 per year
Coin Listing Fees

\$ 500,000 in year 1 growing to \$2-5 million by year 5
Software Licensing Fees

Disclaimer: The financial projections presented here are based on certain assumptions and market conditions. These figures are estimates and may vary depending on factors such as market adoption, regulatory environment, and overall cryptocurrency market performance. Actual results may differ materially from these projections. Potential investors should conduct their own due diligence and not rely solely on these projections for investment decisions.

Meet our crypto experts

This team combines extensive blockchain expertise, technical prowess, and business acumen to drive NightTrader's mission of creating a secure and innovative decentralized trading platform.

Alec Hahn - CEO

Pioneer of the world's first bitcoin/altcoin ATM.

- Over 20 yr of entrepreneurial experience
- Co-conceived NightTrader vision in 2014
- Extensive experience in blockchain technologies and startups

Oleksandr Iakovliev CTO

Head programmer and architect of the NightTrader Exchange.

- Proficient software architect with expertise in high-load systems
- Experience in mobile gaming, energy, and finance industries
- Deep understanding of blockchain technologies and cryptography

Nickolas A. - COO

Engineering technician, generalist & project manager.

- Diverse technical background including nuclear operations and drone piloting
- Extensive experience in system troubleshooting and maintenance
- In crypto trading and mining since 2017

Craig Claussen QA

Community manager, testing lead, & social media manager.

- Experienced in project management and software testing
- Avid trader and market analyst
- Strong passion for decentralization in society

David Zimbeck

Programming Advisor

Cryptography expert, designer of the digital double deposit escrow system & the BitBay cryptocurrency.

Bartek Probola

Chartered Accountant

Data driven decisions, returns mindset, creative solutions, & building high performance teams.

Borja Vázquez M.

Chartered Advisor

Financial Director in different countries and in different fields.

Join the Future of Decentralized Finance

Invest in NightTrader.Exchange:

The Next Generation of Crypto Trading!
